

EPC-Net Model Weight Access Request

Research-Use Statement

The EPC-Net model weights are available only to approved users for non-commercial research, education, and technical evaluation.

1. Applicant Information

Full name: _____
Institution : _____
Position : _____
Email: _____
Supervisor / PI: _____

2. Intended Use

Please select all applicable purposes:

- | | |
|--|---|
| ☐ Academic research | ☐ Educational use |
| ☐ Technical evaluation | ☐ Algorithm benchmarking |
| ☐ Medical image segmentation | ☐ Virtual surgical planning research |
| ☐ Patient-specific implant research | ☐ Medical 3D modelling |

Other: _____

3. Research-Use Conditions

By signing this form, I confirm that:

1. The model weights will be used only for approved, non-commercial research, educational, or technical evaluation purposes.
2. The model weights and access links will not be shared, redistributed, published, sublicensed, or transferred to unauthorized persons or organizations.
3. The model weights will not be used for clinical diagnosis, treatment planning, surgical decision-making, implant manufacturing, or direct patient care.
4. The model weights will not be integrated into commercial products, paid services, or publicly accessible platforms without prior written authorization.
5. Medical data will be handled in accordance with applicable ethical, institutional, privacy, and data-protection requirements.
6. All generated segmentations and STL models will be independently reviewed and validated by appropriately qualified professionals.
7. Publications and presentations resulting from use of the model will cite the associated EPC-Net manuscript.
8. Access may be withdrawn if these conditions are violated, and all copies of the model weights must be deleted upon request.

4. Declaration

I confirm that the information provided above is accurate and agree to comply with the stated conditions.
